Subject: Application for IT Support and Junior Web
Developer Position

Dear Hiring Manager:

I am writing to express my interest in the IT Support and Junior Web Developer position in your company. With my background in Information Technology, I am eager to apply my knowledge in computer troubleshooting, hardware servicing, and basic programming.

I have basic skills in computer hardware installation, troubleshooting, maintenance, and software setup. I also have knowledge of HTML, CSS, JavaScript, and basic programming, and I am willing to continue improving my coding and technical skills.

I am a hardworking, responsible, and motivated individual who is willing to learn new technologies. I can work independently or with a team and can adapt to different technical tasks.

I am interested in this opportunity because it will allow me to apply both my technical and programming skills in a real work environment while gaining valuable experience in the IT field.

Thank you for considering my application. I would appreciate the opportunity to discuss my qualifications and how I can contribute to your team.

Respectfully yours,

JEWEL D. ESPIRITU

Applicant – IT Support and Junior Web Developer

JOB/EMPLOYER REFERENCE

Salary Range: Php 18,000.00 – Php 21,000.00

JOB SUMMARY

To provide timely and effective technical assistance for internal systems, hardware, and software, ensuring smooth operations and minimal downtime. The Technical Support Engineer serves as the first line of defense for resolving IT issues, maintaining system integrity, and supporting end-users across the organization.

Company: South Asialink Finance Corporation (SAFC)

Position: Technical Support Engineer (Office in Cabanatuan — Area Handle: Region 2 and 3)

Location: Cabanatuan City, Nueva Ecija

Salary Range: ₱18,000.00 – ₱21,000.00/month

Employment Type: Full-time

Date Posted: June 22, 2026

Source: SAFC Official Website — safc.com.ph

Key Responsibilities

- Diagnose and resolve hardware, software, and network problems
- Respond to support tickets, emails, and calls from internal users
- Install and configure operating systems, applications, and devices
- Perform routine system checks and updates
- Assist with login issues, password resets, and access requests
- Provide guidance on using internal tools and platforms

Evidence: Screenshot of the official SAFC job posting from safc.com.ph is attached.

PROCESS & INTEGRITY NOTE

I researched this opportunity by visiting the official website of South Asialink Finance Corporation (SAFC) at safc.com.ph. I navigated to the careers section and found the Technical Support Engineer position based in Cabanatuan City, Nueva Ecija. I reviewed the full job posting carefully, including the job summary, responsibilities, qualifications, salary range, and posting date to ensure all details were accurate and complete.

To verify the information, I cross-checked the company's official domain and confirmed that the posting was published directly on their site, not from a third-party template. I made sure the location, salary, and role description matched what was shown on the page, and I captured a clear screenshot as evidence of the source.

I did not use artificial intelligence to generate this resume, cover letter, or any part of this submission. All content was written by me based on my own skills, background, and understanding of the role. I used the job posting only as a reference to align my application with the position's requirements, and every part of this work reflects my own effort and original writing.
